Suzy Post, the first director of MHC, recently was named a Daughter of Greatness by the Muhammad Ali Center for all of Suzy’s work in justice over the decades. In her remarks, Suzy talked about how the past is entwined with the present, and we explore that in this issue of the MHC newsletter.

The recent loss of two great and formidable champions of fair housing: Senator Georgia Powers and Dr. Jack Ford, makes us reflect that we are on a long multi-generational journey toward justice. We need to know the road we have followed to see where we are headed.

Save the Date! A community forum on Aging in Place for Fair Housing month. Tuesday, April 5th 12:00 - 1:00 pm Metro United Way | 334 E. Broadway
Past is part of our future (Cont.)

This newsletter we will honor Georgia Powers, and in a subsequent one, Dr. Ford will be honored. Please read the articles about these two tireless workers for fair housing and for housing for persons with disabilities. Then review the history of segregation in Louisville in the publication Making Louisville Home for Us All: a 20-Year Plan for Fair Housing, which reminds us that:

“residential patterns are neither accidental nor the result of individual choice. They developed over generations of policies and practices that included (1) widespread denial of mortgage loans to people of color in suburban areas whose residents resisted diversifying, (2) the routing of highways through African American and poor neighborhoods resulting in large scale displacements, (3) land-use policies that confine multi-family housing to small areas of the count and (4) persistent housing discrimination and massive cutbacks since the 1980s in subsidized housing and even in times of high unemployment. “

These same conditions exist today in transmogrified forms:

(1)The 2015 State of Metropolitan Housing Report had recent data from the Home Mortgage Disclosure Act that showed denial of mortgages to minorities is as intense as ever.

(2)The only large scale displacements in the last decade have been from flooding in African American neighborhoods or from HOPE VI, which neighborhoods were predominantly African American.

(3)While we are very proud of the incentives and permission to have development in R4 and R5 that includes multi-family and affordable housing, but these are only incentives. To combat decades of exclusion, we need deliberate strategies covering all industries involved in development.

(4)Massive cut backs in public housing, Community Development Block Grants, and HOME funds have eroded the city’s ability to respond to the legacy of segregation. Louisville needs a local well-funded Affordable Housing Trust Fund to have the ability to respond. All resources need to be expended using a fair housing lens in allocation.

Using our historical perspective we can see how much and how little we have moved (pun intended) toward true housing opportunities and choice.

Honoring Georgia Powers

Legendary civil rights icon, Senator Georgia Davis Powers, died on Saturday, January 30, 2016, at the age of 92. Georgia Lee Montgomery was born to the union Ben Gore and Frances Walker Montgomery on October 29, 1913, in Springfield, Kentucky. She grew up in West Louisville on Grand Avenue with eight brothers – Georgia was the only girl.

Georgia Powers’ political career began in 1962 working for candidates Wilson W. Wyatt for US Senate, Edward T. Breathitt for Governor, Norbert Blume for Congress, and other local candidates. A history maker and civil rights activist, Powers led the Allied Organization for Civil Rights in promoting a statewide public accommodations and fair employment law. She was one of the organizers of the 1964 March on Frankfort in support of equity in public accommodations.

Senator Georgia Powers was elected to the Kentucky Senate in 1967 as the first African American and first woman elected to a full term, serving 21 years until her retirement in December 1988. Georgia Powers was Kentucky’s original drum major for justice and equality.

During her tenure in the Senate, Powers authored more than 150 bills, including statewide fair housing legislation and bills prohibiting employment discrimination, and sex and age discrimination. Senator Powers also supported legislation to improve education for the physically and mentally disabled.

Never fully retired from service, Powers continued her work in the community as an activist and as a sought after lecturer. Cherished throughout the country for her quiet strength, no nonsense leadership and charisma, Senator Powers received hundreds of awards and honors, including five honorary doctorate degrees.

In describing her life, Senator Powers wrote: “What a blessed life I’ve lived from my birth until this time. I considered myself on a mission as an advocate for African Americans, women, children, disabled, handicapped, elderly and ‘voiceless’ people.”

On behalf of MHC’s Board of Directors & staff, thank you to everyone who donated to MHC in honor of Kenny Lanham, Jr. Kenny was a great advocate for fair & affordable housing and a former MHC board member. He will be greatly missed.

Legend of Civil Rights icon, Georgia Powers

At the age of 81, Senator Powers was elected First Vice President of the Louisville Branch NAACP and served untiringly with distinction for ten years.
APRIL IS FAIR HOUSING MONTH!
Please join MHC and community partners for this free event, open to the public.

Community Forum: Aging in Place

Please join us during Fair Housing month for a community forum on aging in place. Community partners will discuss the upcoming challenges as an increasing number of our population ages and what services will be necessary to ease this transition.

When: Tuesday, April 5th 12pm-1:00pm
Where: Metro United Way 334 E. Broadway

RSVP or Questions: Email michael@metropolitanhousing.org or call (502)-584-6858

Take the online 2016 MHC supporter survey
Every year we use this survey as a way to assess how our members and the public view our work and help us better identify your priorities going forward! Please follow the link below to take the survey and let your voices be heard!

https://www.surveymonkey.com/r/5XFFXMG
The state requires that municipalities such as Louisville have a Comprehensive Plan that lays out the goals for future growth. Quoting Louisville’s current Comprehensive Plan, titled Cornerstone 2020, “Kentucky Revised Statutes, Chapter 100, authorizes local governments to regulate the use and development of land only after the adoption of a Comprehensive Plan which establishes the goals and public policies which define the government interest in such regulations.” In particular, K.R.S. 100 requires a Comprehensive Plan to include a Statement of Goals and Objectives and at least three Plan Elements: a Land Use Plan Element (zoning), a Transportation Element (including transit), and a Community Facilities Plan Element.

Why We Need to Improve Cornerstone 2020
MHC has long worked on zoning as a major impediment to fair housing. Cornerstone 2020, the Comprehensive Plan under which the last 17 years of development has occurred, deliberately rejected the goals of fair housing, affordable housing, and/or sustainability. These were all goals promoted by advocates and rejected by governing powers.

DO NOT LET THE GOAL OF FAIR HOUSING OR AFFORDABLE HOUSING OR SUSTAINABLE GROWTH BE THROWN OUT OF THE NEW PLAN.

Cornerstone 2020 is (blessedly) expiring. We have gotten the very growth that it set as a goal: segregation and a lack of affordable housing for workers and people on fixed incomes. We cannot let that happen again. With the expiration of Cornerstone 2020, we have a chance to set new goals that bring Louisville forward, but this will only happen with your participation.

Opportunities to Participate in Upcoming Comprehensive Plan
There will be opportunities for your input, and MHC is committed to providing them. MHC will work with Louisville Metro government to ensure you get ample opportunities, but you need to participate through your personal engagement and by engaging your groups.

K.R.S.100 mandates that the Comprehensive Plan should be based upon research and analysis of the community, including:

The general distribution of past and present populations and a forecast of the extent and character of future populations. **MHC believes that the recent U.S. Supreme Court case on fair housing laws will make this a more important factor because documented segregation patterns need to be addressed.

An economic survey and analysis of the major existing public and private business activities, a forecast of future economic levels, and a forecast of necessary actions to increase the quality of life of current and future populations through economic development.

An analysis of the nature, extent, adequacy, and needs of the community for the existing land and building use, transportation, and community facilities.

Your Vision of Louisville in 20 Years!
Sounds pretty technical, but what it all boils down to is YOUR VISION of what Louisville should look like in 20 years. Do you want less segregation by race and/or economics? Do you want sustainable and energy efficient development and rehabilitation of our built environment? Do you want better air, water, and drainage? Do you want transit? Do you think new job centers should be planned to include nearby housing? Do you believe that anyone who works full time should be able to afford a modest place to live without being cost burdened? Do you want trees and art amenities near your neighborhood and other neighborhoods? Do you want different types of housing to choose from?
