Greetings!

Give for Good Louisville is done and was a great success!
Thank you for helping us reach our goal of at least 50 donors and $4,500!

by Michael Kolodziej

Give for Good Louisville has come and gone! The biggest day of local giving took place all day on Thursday, September 14th, and once again it was a wonderful experience. MHC also attended the Mid Day rally on 4th Street where 100+ nonprofits also participated.

Last newsletter, we stated our goal for this year’s Give for Good was to raise $4,500, and to also have at least 50 unique donors. I’m extremely pleased to announce that we had 60 unique donors and raised $5,000. We will find out how much we earned from the matching pools next month, but we already raised more money! Last year we had 39 donors, so an increase of 21! Hopefully next year, we’ll reach the stretch goal of 75 unique donors!

A big thanks to everyone that donated and spread the word. I’d also like to thank the hard work of MHC’s Development Committee and our Board of Directors. We wouldn't have been able to reach these goals without your help! And of course, thanks to the Community Foundation of Louisville for making it all happen and providing assistance and training at every turn.

Congratulations to the Louisville Metro Department of Resilience and Community Services on their improved changes to LIHEAP
by Cathy Hinko

Great changes have been implemented by the Department of Resilience and Community Services to make the Low Income Home Energy Assistance Program (LIHEAP) much easier to use. Last year, they went to a system where people could call into the program to make an appointment. Before you had to go to the physical site just to get an appointment to come back and apply. This
was implemented with great success.

This year, they have added a pre-registration phase for being able to set-up an appointment. Pre-registration is for Jefferson County residents who are on a fixed income, who are age 60 or over, or disabled receiving social security, SSI, pension, or Black Lung benefits.

The Department also took up MHC’s issue on state rules that punish people who use metered gas and electric services and favor those using propane, oil or wood for fuel. The old policies made people have to get a late notice from LG&E (how counter-productive to make households go into default) before they could get the Crisis part of LIHEAP. With the intervention of the city, along with MHC’s fair housing argument, the state now recognizes that those using metered utilities should not be required to ruin their credit to gain access to a program when that is not a requirement for others.

We should all commend the Louisville Metro Department of Resilience and Community Services on this commitment to consumer service. Thank you!
